“My teeth were just draining my self-confidence and I'd had enough. It only took one visit with Dr Robby and his amazing team to know I had made the right decision. I went in for a smile makeover consultation and within days of the initial appointment I was booking back in to start treatment.”

**H, Ami.**

“I just finished my treatment with Dr. Sehmi, and honestly... there is nothing I can fault. Everything went perfectly and came out with the smile I was promised!”
