

Is your Dental Treatment still pending?
or
Are you delaying your regular dental appointments?

YES?

Well, then you could be...

- increasing **RISK** of pain, swelling or abscess.
- requiring **MORE** complex treatment as time lapses.
- spending **MORE** on new treatment.
- **MISSING** out on your annual health fund benefits.

Give us a CALL TODAY to finish your treatment plan, or to BOOK in for your regular check up to ensure your oral health is on track.

DID YOU KNOW; Statistics show dental attendance behavior is strongly associated with oral health status. Among adults who attended dental appointments every 6 months 93% rated their dental health as excellent. Meanwhile others who had not been in years rated their oral health as poor.
