

KEEP YOUR SMILE WITH DENTAL IMPLANTS

CONGRATULATIONS! DR. ROBBY SEHMI

We congratulate Dr. Robby Sehmi on successful completion of a year long Master's program in Implant Surgery from the Brener Implant Institute and he now utilises the latest in 3-d imaging and software to provide the most accurate implant placement.

Dr Robby Sehmi is currently the Australian and Asia trainer for the Inman Aligner Orthodontic system. He has written several articles on the subject of minimally invasive orthodontics and regularly lectures across Australia to other dentists.

Robby received top honours and graduated Dentistry from Trinity College, Dublin in 2003. He also obtained a degree in biology and chemistry from the University of Toronto (1998). Following graduation, Dr. Sehmi worked in multi-disciplinary private practices, both in UK and Australia where he was mentored in Endodontics and Complex Restorative treatments. Dr. Sehmi prides himself on detail, precision and perfection and with his exemplary communication skills, has earned respect of his patients, colleagues and students. Much of his education has been dedicated to every aspect of patient care and comfort with a unique focus to help fearful patients overcome their anxiety so they can receive the treatment they need. Apart from family and dentistry, Dr. Sehmi is a fitness enthusiast who also enjoys hiking, biking, resistance training and golf. His other passions include art and design.

Advantages Of Dental Implants

- Implants don't slip or shift, giving you the same stability and security as your natural teeth.
- Implants are cleaned in the same way as your natural teeth, so there's no need to take them out at night for cleaning or soaking.
- Implants don't rely on neighbouring teeth for support; therefore, no tooth structure is lost, as is necessary when fabricating a bridge.
- Implants prevent the shifting of nearby teeth, preserving jawbone and the contour of your face.
- Implants are an ideal cosmetic solution to missing teeth, allowing you to chew and speak with ease.
